Our Duty As Citizens

A victorious conclusion of the war depends not alone on the armed strength and mechanized superiority of the Allied powers.

Behind our guns, and our fast bombing planes there are men—men who a few months ago followed peacetime pursuits, were a part of the tremendous, pulsating entity that we call Canada. They were our fathers, our sons.

Today, those men—Canadian citizens who have taken their leave from society for a few months or a few years—have assumed another task. They are girding themselves for war, a war that is to determine whether or not we are to be free to live as individuals, free to worship as we wish, free to think as we have been accustomed.

For this freedom, which many of them may not live to enjoy, they are making courageous sacrifices. Voluntarily and with no thought of personal gain, they have given up their home life, jobs and social pleasure.

How can we, who remain at home, keep the wheels of industry revolving, make our contribution—small though the largest may be in comparison to the cause for which our men are fighting? The answer is simple.

Do your share. There is not a man or woman in the district but who can make some contribution in cash, work, leadership or interest. In the latter case we are thinking of the comfort which is given to soldiers by those who are writing letters. We know of a young people's group who have taken up the work seriously each member being assigned to write a soldier, the names of the men, for obvious reasons, being rotated among the group.

Knitting socks, making sweaters, oh yes there are a hundred and one ways in which we can show in a practical way that we are behind our war effort.

The Farmers Will "Pay the Shot"

The ABERHART GOVERNMENT IS COLLECTING AND SPENDING TWENTY-FIVE-MILLIONS a year — the most EXTRAVAGANT ADMINISTRATION this Province ever had.

THE CUT IN BOND INTEREST LITTLE BENEFITS ANY CITIZEN because the Government is spending just that much more. It has shown no inclination to retrenchment.

AS AGRICULTURE is the main source of new wealth, it must bear more of the tax burden. Farmers can be taxed in so many ways that often they do not realize they are paying more taxes.

But every farmer knows that the Aberhart Government passed a law Taxing All Farm Production 7 Per Cent!

The courts threw out this law, But It May Well Be Introduced In a New And More Effective Form!

You can not rely on PROMISES or DENIALS from Aberhart Government after 4 1-2 years — you know that. They took \$2000 for 7 days' work!

CERTIFIED SEED**

MAKE plans early this year to harvest a bumper crop of smooth, clean, high-quality potatoes. Good seed is the first requirement for an excellent crop... because only good seed will grow vigorous plants, plants that can withstand most of the serious diseases common to potatoes.

Canadian Certified Seed Potatoes are good seed potatoes. By planting them, many of the losses due to disease will be avoided... higher-quality, cleaner, smoother, more uniform potatoes than those grown from ordinary seed stock will be produced.

So, this season, harvest finer potatoes—and more of them. Plant Canadian Certified Seed. Grow potatoes that will grade Canada No. 1. Canadian Certified Seed Potatoes are available in all standard varieties. Be sure to select the variety most suitable for your locality! Ask the local District Government Inspector, Plant Protection Division, for full information and list of nearest distributors.

Keep Canada's War Effort United!

Experienced Leaders are **VITAL for VICTORY**

In six months of war the Mackenzie King Administration has set an unprecedented record of *getting things done* without fuss and fury. Under its steady leadership, Canada has gone ahead on all fronts—war, economic and domestic. With clear heads and with feet on the ground, this group of purposeful men is making every ounce of Canada's weight felt in our fight for freedom. What it has done has been done thoroughly: there has been no loose thinking; no half-measures; no waste of men, money or materials.

Some of the Mackenzie King Administration Wartime Accomplishments

It united Canada as never before—Every province is heart and soul behind the Empire's war effort this time, thanks to the Administration's truly national policies.

The First Division, completely equipped, has been sent overseas to a Mother country prepared to receive it.

The Second Division is recruited, equipped and ready to go over.

The great Empire Air Training Scheme—sponsored and mainly financed by Canada, has been launched on a planned and ordered basis.

Naval Defence for both East and West Coasts including Air Force, Mine Sweepers and Convoying, has functioned efficiently since the outbreak of War. Of it, a Senior British Naval Authority has said: "No finer work is being done anywhere by the Royal Navy itself."

Price Control of all commodities, including such vital necessities as wool and sugar, has been established, with prices pegged low for the poor man. The profiteer is out, and will be kept out—in marked contrast to the free-for-all of the last war.

Shipping Control and Foreign Exchange Control are firmly established on sound lines and are functioning smoothly and effectively.

A \$200,000,000 War Loan was over-subscribed within two days of its launching, a record that proves public confidence. Its reasonable rate of 3 1/4% contrasts with 5 1/2% tax-free rate of the last war.

Political and Private Patronage has been stamped out: merit is the sole basis for selection or promotion in our armed forces.

Great Britain's war financing problems have been lessened through the co-operation of the Canadian Government.

War Contracts totalling well over \$100,000,000 have been placed, stimulating every branch of Canadian industry.

Canadian employment has hit an all-time high owing to these orders and to good internal business conditions.

Armament deliveries are approaching full-speed: aeroplanes, Bren guns, tanks, artillery accessories, ships—all coming forward in impressive quantities.

Large purchases of Canadian wheat,—preventing a serious wheat glut—have been arranged through a special mission sent to London by the Mackenzie King Administration.

5,600,000 pounds of bacon will be shipped to Great Britain each week, as well as large quantities of flour and fish.

Huge shipments of steel and other materials essential to the conduct of the war have been arranged for.

Make Your Vote Support Canadian Unity

Such a record simply didn't *just happen*. It resulted from the efforts of a strong administration working on behalf of a country *united in all its parts as never before*. And this singleness of purpose—conspicuously absent in 1914—is due to the vision, understanding and drive of individual *Canadian and Empire-minded* Statesmen who back the Empire's participation in the war with their eyes wide open and with full determination to play their parts to the full.

We appeal to the people of Canada for the support which is essential to carry on and complete a task, the groundwork for which has been laid carefully, soundly, wisely . . . with foresight, determination and resolute courage.

On March 26th show your faith; vote for the Candidate supporting
Mackenzie King and help make sure there can be no break in
Canada's steadfast stand in these critical times.

POULTRY POLICIES

There are two sound reasons why the Dominion Department of Agriculture has shown so much concern and zeal about graded or quality eggs. First, it was felt that the Government has a responsibility in seeing that the public obtains pure and good food. Second, insisting that eggs are marketed according to quality, the farmer will

get the benefit of greater return and the poultry industry will be improved.

A noted chef has declared. "Eggs are the cement that bind together the great palace of cooking."
